INTRODUCTION

The Alaska Game Law (act of January 13, 1925, 43 Stat. 739—U. S. Code, title 48, secs. 192–211; as amended by act of February 14, 1931, 46 Stat. 1111—U. S. Code, Supp., title 48, secs. 192–207) and the regulations thereunder supersede all previous Federal laws and regulations for the protection of game animals, land fur animals, and birds in the Territory, except the Migratory Bird Treaty Act of July 3, 1918 (40 Stat. 755—U. S. Code, title 18, secs. 703–711), the Lacey Act of May 25, 1900, as amended (31 Stat. 187–188—U. S. Code, title 16, sec. 701; 35 Stat. 1137—U. S. Code, title 18, secs. 391–395), and the laws protecting animals and birds on Federal reservations (U. S. Code, title 18, sec. 145, and U. S. Code, Supp., title 16, sec. 715i), and the regulations thereunder.

THE NEW REGULATIONS

The regulations under the Alaska Game Law effective throughout the Territory have been modified by the following provisions for the season 1933–34:

In line with increasing interest in the conservation of large brown bears, and to assure their perpetuation, regulations 10 and 11 have

been amended to give them seasonal protection and to restrict the bag throughout their coastal range. The region adjacent to Glacier Bay National Monument on the east, south, and west also has been closed to the hunting or killing of these bears, by an amendment to regulation 14, though hunting and trapping of other game and fur animals are permitted there.

Regulation 4 has been amended to clarify the authority of the Alaska Game Commission in the matter of examination and authentication of skins of beavers and martens, to aid in suppressing illegal traffic.

Amendments to regulations 12 and 13 continue provisions in effect last year that the seasons and the daily and possession limits on waterfowl and other migratory game birds shall conform to the Federal regulations under the migratory bird treaty act.

Responding to appeals from interested local sportsmen, the closed area for the protection of introduced buffalo in the Big Delta section has been slightly reduced by an amendment to regulation 14. This will not lessen protection to the buffalo, but will permit other use of the area.

Regulation 14 has been further amended to close to moose hunting certain islands east of longitude 141°. This amendment is designed to afford protection to female moose that swim from the mainland to these adjacent islands to escape from wolves at calving time; and also to induce the moose to remain on the islands. To provide a practical, well-defined boundary of the Kenai Moose Refuge, a portion on the eastern side is made to follow natural watersheds and streams.

Modifications in regulation 19 are made from year to year in the open seasons on fur animals to afford residents the maximum benefits consistent with proper maintenance of breeding stocks. This year existing economic conditions have made it desirable to liberalize certain trapping restrictions, including an extension of the open season on beaver to May 10 in all fur districts except 1, 3, and 8.

For the benefit of hunters and trappers who must frequently consult the regulations, the open and close seasons and the bag and possession limits on game and fur animals, license requirements, and other provisions are this year summarized in this circular. As a measure of economy, however, the text of the Alaska game law is being omitted. Persons interested can obtain copies of the text of this and of other Federal laws relating to the protection of wild life in the Territory by writing to the Alaska Game Commission, Juneau, Alaska, asking for Circular No. 10.

Any person may transport within the Territory during the period constituting the open season therefor migratory game birds legally taken during the open season, and any such migratory game birds or parts thereof in transit during the open season may continue in transit for such additional time immediately succeeding such open season not to exceed five days, as may be necessary to deliver the same to their destination and may be possessed within the Territory during the period constituting the open season and for an additional period of 10 days next succeeding such open season, but no person shall possess more than 50 migratory game birds in the aggregate, but including not more than 30 ducks and 8 geese and brant of all kinds, at any one time.

On the return of the trophies to the consignor by express or freight, the export license shall accompany the bill of lading, but if returned by parcel post, the export license shall be attached securely to the outside of the package in a conspicuous place, and the collector of customs at the port of entry, or the postmaster through whose office it is received, shall detach the export license, note thereon the contents of the shipment, and promptly return the license to the commission.

In the discretion of the commission permits may be issued to residents of the Territory for the export of legally acquired game animals, birds, or parts thereof, for purposes other than sale. Such permits may be obtained from any member of the commission, game warden, or collector of customs. Such animals, birds, or parts thereof may be shipped by express or freight, and the permit shall accompany the bill of lading covering any such shipment to the port of clearance from the Territory, where such permit shall be taken up by the collector of customs and returned to the commission.

REGULATION 4.—POSSESSION AND TRANSPORTATION OF FUR-BEARING ANIMALS

Live land fur-bearing animals legally taken during an open season may be retained after the close of said open season or sold for propagation purposes within the Territory, provided that persons possessing such animals report their possession to the Alaska Game Commission at Juneau and apply for a permit to possess such animals pursuant to regulation 22 hereof within 30 days after the close of said open season.

The skins of land fur-bearing animals for which an open season is provided, or parts thereof, when legally acquired, may be possessed and transported by any person at any time, but no person who is engaged in fur farming or is a fur dealer or an agent of a fur dealer shall possess or transport any fur-bearing animal or part thereof unless at the time of such possession or transportation he is in possession of a valid license issued to him pursuant to the provisions of the Alaska game law, and no person shall possess or transport any illegal skin at any time. In case shipment is made by express or freight, the shipper shall first deliver to the transportation agent at the point shipment is accepted, or if by parcel post to the postmaster at the point of mailing, a statement correctly showing the number and kind of skins in each shipment and stating further that no illegal skin is contained therein; and further, if shipment contains beaver or marten skins, the statement shall show serial number of the commission's seals attached to each skin. Transportation agents and postmasters shall not knowingly accept shipments containing furs without such statement. If shipment is made by express or freight, such statement shall accompany it to the port of clearance, there to be taken up by the collector of the port, or, if by parcel post, by the postmaster at the office where mailed. In case skins or furs are shipped out of the Territory by means other than express, freight, or parcel post, the person transporting them shall deliver such statement to the collector of customs at the port of clearance. Collectors and postmasters shall promptly transmit such statements to the commission.

Skins of beavers or martens shall be sealed with a seal prescribed by the commission within 90 days after the close of the open season during which such skins were legally taken or within 30 days after such skins are imported into the Territory as hereinafter provided.

Persons importing and desiring to have such skins sealed shall within 30 days present them to a member of the commission, to a game warden, or to any other officer authorized by the commission to seal skins, together with such affidavit or affidavits as the commission or any such officer may require.

Persons having taken the skins of beavers or martens shall, within 90 days after the close of the open season during which they were legally taken, personally present them to a member of the commission, to a game warden, or to any other officer authorized by the commission to seal or tag skins, together with an affidavit of lawful taking completed on a form adopted and furnished by the commission and such other affidavit or affidavits as may be required by any officer authorized to seal such skins: *Provided*, That persons residing in remote localities and finding it impracticable to present such skins to an officer authorized to seal them as hereinbefore prescribed, may present such skins, together

with affidavit of lawful taking completed on a form adopted and furnished by the commission as hereinbefore prescribed, to any individual authorized by the commission to attach thereto a tag bearing an authorization permitting such skins, if legally taken, to be sold and transported within the Territory, subject to examination and authentication by a representative of the commission; and such skins so tagged shall be presented by a lawful possessor to a warden or member of the commission, or to any other officer authorized by the commission to seal skins, for sealing within 90 days after the close of the open season during which they were taken: *Provided*, That such commissioner, warden, or officer may require further affidavit or affidavits of the person taking the skins at any time before they are accepted and sealed as legal skins. REGULATIONS OF THE ALASKA GAME COMMISSION RELATING TO GUIDES, POISONS, AND RESIDENT TRAPPING LICENSES

By virtue of the authority conferred upon the Alaska Game Commission by the act of January 13, 1925 (43 Stat. 739; U. S. Code, title 48, secs. 192-211; as amended by the act of February 14, 1931, 46 Stat. 1111; U. S. Code, Supp., title 48, secs. 192-207), entitled "An act to establish an Alaska Game Commission to protect game animals, land fur-bearing animals, and birds in Alaska, and for other purposes," the following regulations for the protection of game animals, land fur-bearing animals, and birds in Alaska are made and published, to take effect July 1, 1933:

REGULATION A.—EMPLOYMENT OF GUIDES BY NONRESIDENTS HUNTING IN ALASKA⁸

No nonresident of the Territory shall take game animals in Alaska except in Fur District 8 unless accompanied by a registered guide duly licensed by the commission, except that nonresident Federal officials engaged in investigations in Alaska upon securing a special permit from the commission shall not be required to employ licensed guides when hunting game animals: *Provided*, That no registered guide shall accompany more than one nonresident hunter in the field, except that he may accompany a nonresident man and/or wife and/or minor child when such additional persons are duly licensed.

No nonresident shall pursue or disturb a large brown or grizzly bear for the purpose of photographing such animal unless accompanied by a registered guide as hereinbefore required.

REGULATION B.—QUALIFICATIONS OF GUIDES

Only a resident citizen or a resident native Indian or Eskimo who is the holder of a valid registered guide license shall act as guide for a nonresident hunter of game animals in Alaska. Any person desiring to be registered with the commission and granted a guide license for guiding nonresident hunters, shall file with the commission an application, on a form issued by the commission, which shall be subscribed and sworn to by the applicant before a person authorized to administer oaths. Such application shall state applicant's citizenship and residence status, his permanent address, and the regions in which he desires to guide nonresident hunters. Each applicant for a registered guide license shall have been a resident of Alaska for five years immediately preceding his making application for such license and shall be required to undergo a written and oral examination given by a member of the commission or by such person as the commission may designate, to determine his qualifications to guide, and his knowledge of the Alaska game law and regulations.

If, in the opinion of the commission, an applicant for guide license does not possess sufficient field experience but meets all other requirements of the regulations, an assistant guide license may be issued to the said applicant limiting his guiding privileges until such time as the commission is satisfied that he is qualified for a regular guide license.

No registered guide license shall be issued unless the application therefor shall have been approved by the Alaska Game Commission at a regular or special meeting: *Provided*, That in cases of emergency the executive officer may, after due investigation and being satisfied of the applicant's qualifications, issue a special guide license upon an application properly completed and accompanied by the required fee, authorizing the licensee to guide certain specified nonresident hunters, who shall be named in the application for such license: *Provided further*, That the extension of guiding privileges authorized by such licenses or the renewal therefor shall be made only upon compliance with the requirements first above stated.

A registered guide license must bear the signature of the chairman of the commission and be countersigned by one other member of the commission.

⁸ A list of licensed guides may be obtained upon request addressed to the Alaska Game Commission, Juneau, Alaska.

Each license shall expire on June 30, next succeeding its issuance, shall be revocable at the discretion of the commission, and shall not be transferable.

Each licensed guide shall submit to the commission immediately upon completion of a hunting trip, a report containing the name and address of each non-resident in each hunting party for which he acted as guide, the period covered by his services rendered each hunting party during the open season, the number and species of animals taken by each nonresident guided by him, the number and species of animals wounded but not secured by each nonresident hunter guided by him, and the numbers and localities of each species of big-game animal observed by him and members of the hunting party, and such other information as the commission may require.

REGULATION C.—USE OF POISON

No hunter or trapper, including native Indians or Eskimos, shall have in possession any poison compounds of strychnine, arsenic, phosphorus, antimony, barium, the cyanides, corrosive sublimate, or any other poison capable of being used for killing fur-bearing or game animals. Possession shall include presence of such poisons in camps, cabins, buildings, or boats occupied by hunters, trappers, native Indians, or Eskimos.

REGULATION D.—RESIDENT TRAPPING LICENSE

After July 1, 1933, no resident of Alaska, except a native-born Indian, Eskimo, or half-breed, who has not severed his tribal relations by adopting a civilized mode of living or by exercising the right of franchise, shall take or attempt to take land fur-bearing animals in Alaska without first having obtained a resident trapping license.

On and after July 1, 1933, all former regulations of the Alaska Game Commission relating to guides, poisons, and resident trapping licenses shall be and are hereby, revoked.

IN TESTIMONY WHEREOF we have hereunto set our hands and caused the official seal of the commission to be affixed in the city of Juneau, Territory of Alaska, this 6th day of December, 1932.

BIRD AND WILD-LIFE REFUGES IN ALASKA

On the Alaska bird and wild-life refuges named below, which are administered by the Bureau of Biological Survey through its representatives in Alaska, wild animals and birds are specially protected. In addition, the Mount McKinley National Park, the Katmai National Monument, and the Glacier Bay National Monument, under the National Park Service of the Department of the Interior, are game sanctuaries, all hunting being prohibited in these places. Certain other areas where birds and animals are protected in the Territory are defined in regulation 14 (pp. 13-15).

Afognak Island Reservation (established by Executive proclamation of December 24, 1892).—An island northeast of Kodiak and the second largest in the Kodiak group, set aside to protect game and sea animals, and the salmon fisheries in the adjacent waters. This island is of great value as a sanctuary for the exceedingly interesting Kodiak bear. Trapping, and the hunting of game animals other than large brown and grizzly bears on the island is permitted in accordance with the Alaska Game Law.

Aleutian Islands (established by Executive order of March 3, 1913).—A chain of islands with vegetation characteristic of the treeless Arctic plains, extending westward 1,200 miles from the Alaska Peninsula, including Unimak Island on the east and Attu Island on the west; maintained for the protection of native birds and game animals, the encouragement of fisheries, and the propagation of reindeer and fur animals. Islands usually rocky and some of them covered with a vigorous growth of grass and lichens. Blue foxes are farmed on many. By Executive order of November 23, 1928, the islands of Akun, Akutan, Sanak, Tigalda, Umnak, and Unalaska, including Sedanka or Biorka, and by Executive order of December 19, 1929, a portion of Amaknak Island, were eliminated from this reservation and transferred to the jurisdiction of the Department of the Interior. By Executive order of April 7, 1930, Amak Island, the Sealion Rocks, and a small unnamed island lying southeast of Amak were added to the reservation.

Bering Sea (established by Executive order of February 27, 1909).—Includes St. Matthew and Hall Islands and Pinnacle Islet in Bering Sea, about 220 miles north of the Pribilofs. St. Matthew, a jagged, straggling reach of bluffs and headlands, connected by bars and lowland spits, has an extreme length of 22 miles and varies in width from 2 to 3 miles. Hall Island, 3 miles to the west, is separated from St. Matthew by Sarichef Strait. Pinnacle Islet is a narrow rock about 1 mile long and 200 yards wide and rises to an altitude of 900 feet so abruptly that there is scarcely a place for a boat to land. Arctic foxes, represented mainly by the normal phase, which turns white in winter, are found in numbers, some coming from the mainland in winter on the pack ice. The rare and beautiful McKay's snowflake is known to breed nowhere except on this refuge, and the Pribilof sandpiper breeds here more extensively than anywhere else.

Bogoslof (established by Executive order of March 2, 1909).—Volcanic islets, in Bering Sea, commonly known as the Bogoslof Islands, about 40 miles north of Umnak and Unalaska, of the Aleutian Islands Reservation. Noted for the large colonies of sea lions, and the rocky portion as being the home of millions of murres.

Chamisso Island (established by Executive order of December 7, 1912).—A reservation about a mile and a quarter long and half a mile wide, consisting of Chamisso Island and Puffin and other near-by rocky islets in Kotzebue Sound, 2 miles south of the extremity of Choris Peninsula. One of the most important breeding rookeries of Arctic birds along the northwest coast of Alaska, including horned puffins, Pallas's murres, Pacific kittiwakes, and Point Barrow gulls.

Curry and Alaska Railroad (established by Executive order of February 21, 1927).—Certain areas along the Alaska Railroad between mileposts 40.5 and 252 set aside especially as preserves and breeding grounds for muskrats and beavers, but under regulation 14 (pp. 13–15) all game birds and game and fur-bearing animals are protected; and an area comprising 14 square miles surrounding the Government hotel at Curry, Alaska, as a bird, fish, and game refuge; fishing regulated by the Department of Commerce.

Forrester Island (established by Executive order of January 11, 1912).—In the Pacific Ocean west of Ketchikan, at the extreme southeastern boundary of Alaska, including Forrester and Lowrie Islands and Wolf and other adjacent rocks. The breeding place of various kinds of sea birds.

Hazy Islands (established by Executive order of January 11, 1912).—A group of islands in southeastern Alaska, west of Coronation Island and 100 miles north of Forrester. Breeding place for numerous sea birds.

Nunivak Island (established by Executive order of April 15, 1929).—Located in Bering Sea, off the west coast of Alaska. Set apart for the use of the Department of Agriculture in conducting experiments in the crossing and propagation of reindeer and native caribou and also as a preserve and breeding grounds for native birds and wild game and fur-bearing animals. By Executive order of October 22, 1930, Triangle Island, and all small unnamed islands and rocks lying adjacent to Nunivak Island, were added to this reservation.

St. Lazaria (established by Executive order of February 27, 1909).—At the entrance to Sitka Sound, about 30 miles west of Sitka. The breeding place of certain sea birds.

Semidi Islands Wild-Life Refuge (established by Executive order of June 17, 1932).—The refuge, which is in the north Pacific Ocean, southeast of the Alaska Peninsula, includes the islands of Aghiyuk, Chowiet, Kateekuk, Anowik, Kilik-tagik, Suklik, Aghik, Aliksemit, and South Island, known as the Semidi Island Group. Colonies of puffins, auklets, and petrels inhabit the refuge.

Tuxedni (established by Executive order of February 27, 1909).—Embracing Chisik, Egg, and other small islands in Tuxedni Harbor, Cook Inlet, set aside as a breeding ground for native birds. Within the Southwestern Fisheries Reservation, established November 3, 1922.

SEC. 4. Every breeder of blue foxes shall, before disposing of any blue-fox skins and before the same are removed from the breeding ground or fox farm, mark such skins on the inside of back at base of tail with a perforating reproduction of his brand which shall be readily visible.

SEC. 5. All unmanufactured blue-fox skins legally held in Alaska prior to the passage of this act shall, before October 1, 1923, be exhibited to the United States commissioner in the precinct in which such skins are held, together with an affidavit showing where such skins were raised or from whom and at what time the owner obtained the same, and such other facts as will show the possessor's legal ownership of said skins. Such skins shall then be tagged for identification by the commissioner in such manner and pursuant to such rules as shall be provided by the secretary of the Territory. The commissioner shall file such affidavits and keep in his office such records of such skins and their owners.

Unmanufactured blue fox skins hereafter legally imported or brought into the Territory shall, at the time of entering the Territory, be presented to the United States commissioner of that precinct, and shall be tagged in like manner to those legally held prior to the passage of this act. Any unmanufactured blue-fox skins hereafter legally acquired in the Territory, other than skins raised on farms having a registered brand and branded with such brand as heretofore provided, shall likewise, on the first occasion when such skins are brought to a place where a United States commissioner resides or has his office, be presented to such United States commissioner with an affidavit showing the facts proving legal possession, and shall be tagged in like manner. For such services the commissioner shall receive a fee of one dollar and fifty cents (\$1.50) for each skin, which fee shall be paid by the owner of the skins.

No person, except a fur farmer on his own fur farm, shall possess any blue-fox skin not branded, marked, or tagged as herein provided; nor shall any person buy, sell, offer to buy, or sell, give, receive, or transport any blue-fox skin not so branded or tagged as provided in sections 4 and 5 of this act: *Provided, however,* That nothing herein contained shall prevent the legal taking of wild foxes, and the possession, barter, sale, or transportation thereof untagged if such possession be had or barter, sale, or transportation be made before said skins be brought to any place where a United States commissioner resides or has an office; but the burden of proving such legal taking and possession, barter, sale, and transportation shall rest upon him who asserts the same.

SEC. 6. Subsequent to the first day of October, 1923, every blue fox skin not marked in the manner directed in sections 4 and 5 of this act and not in possession of a fox farmer on his own fox farm shall be presumed, prima facie, to have been unlawfully obtained and to be unlawfully possessed, bought, sold, given, received, or transported as the case may be.

SEC. 7. No holder of a registered brand shall therewith mark any skin or animal other than the animals or skins raised by him nor shall any person mark or brand any skin or pelt, or animal, so as to resemble, imitate, or counterfeit any registered brand or the system adopted in the Territory for branding such animals or skins.

It shall be unlawful for any person not the registered owner thereof to have in his possession and under his control any implement for marking skins or live animals with any registered brand mark, or for any person to have in his possession any implement for marking skins or live animals with any brand

mark resembling or imitating a registered brand mark or the system adopted in the Territory for branding animals or skins.

Any person violating any of the provisions of this section shall be guilty of a misdemeanor, and upon conviction shall be punished by a fine of not more than two thousand (\$2,000.00) dollars, or by imprisonment for not more than one year, or by both such fine and imprisonment in discretion of the court.

SEC. 8. Any person who shall alter, add to, or efface any mark of identification upon any animals or upon the pelt or skin of any animal for the purpose of concealing the identity of the owner of such animal, pelt or skin, or for the purpose of otherwise deceiving or defrauding, shall be guilty of a felony, and upon conviction shall be punished by a fine of not more than two thousand (\$2,000.00) dollars or by imprisonment for not more than three (3) years, or by both such fine and imprisonment in the discretion of the court.

SEC. 11. All persons dealing in, possessing or transporting fur pelts in Alaska, at any time during usual business hours, shall afford any marshal or deputy marshal, Federal or Territorial game or fur warden full and fair opportunity to inspect any and all pelts, furs and skins in their possession, and any person failing or refusing to do so, after demand, shall be guilty of a misdemeanor and upon conviction shall be punished by a fine of not more than two thousand (\$2,000.00) dollars or by imprisonment for not more than one year, or by both such fine and imprisonment in the discretion of the court.

SEC. 12. It shall be unlawful for any person, other than an officer on lawful business, to land or enter upon any island lawfully used for fur farming without the permission of the lawful occupant or the person using said island as a fur farm. When such landing or entrance is made at any other place than within sight of said fur farmer's dwelling house and at a place established by him for landing purposes, such landing or entrance shall be presumed to be without the permission required by this section. Nothing herein contained shall be construed as limiting any rights specifically reserved in the lease, contract, or permit under which any fur farm or island is occupied, nor any right conferred by Federal law or regulation: *Provided, further,* That a landing made on any island by stress of circumstances, storm or accident shall not be deemed unlawful.

Every person occupying an island or land for the purpose of propagating blue foxes shall within three months after the passage of this act place signs within sight of each other, bearing the words in black letters at least six inches high, on white background: "Fox Farm—No Trespassing" in conspicuous places upon said island or land.

SEC. 13. SEC. 14. All traps, guns, boats, or other paraphernalia used in or in aid of a violation of this act shall be forfeited to the Territory of Alaska, and shall be liable to seizure by any Federal or Territorial game or fur warden, or any marshal or deputy marshal, and when so seized shall be delivered into the possession of the treasurer of the Territory or to someone designated by said treasurer to act for him in the matter, and shall by the treasurer or under his direction be sold at public auction and the proceeds covered into the treasury of the Territory after all expenses of seizure and sale have been paid.

For the purpose of carrying out the provisions of this section, the treasurer is authorized to execute all instruments and conveyances necessary for the purpose of conveying title to such property so seized and sold.

SEC. 15. Any person who shall, in violation of the provisions of this act, have in his possession, buy, sell, offer to buy or sell, give, receive, or trans-

port any blue fox pelt not marked or branded as herein provided shall be guilty of a misdemeanor and upon conviction shall be punished by a fine of not more than two thousand (\$2,000.00) dollars or by imprisonment for not more than one year or by both such fine and imprisonment.
